A

With nearly 4,000 m², the Auditorium is one of the largest venues in the Levante region of Spain. Designed to house two auditoriums and many different function rooms, it offers the facilities of a modern conference centre. Since its opening in 1995, it has not ceased for a moment to justify its existence nor increase its prestige.

Its multipurpose nature and its adaptable and technological architecture located in an accessible central area of the city make it the ideal choice for those seeking comfort, innovation and functionality for their meetings.

The **Conference Centre**

COpened in 2002, this building is an extension to the facilities offered by the Auditorium, but with its own personality. Conceived in the same multipurpose spirit, the design of its conference rooms goes still further in adaptability and functionality.

Over 3,000 m² of pure architecture that offers numerous spaces with special dimensions. As well as its extensive technological facilities, its own excellent restaurant service and the experience of its professionals, it is the best option for those looking for a different location for a fair or exhibition, a special business meeting or a project presentation.
